HAFNER

Push-In rýchlospojka Priamy tvar | kovové prevedenie

## Properties

|                                  |                                     |
|----------------------------------|-------------------------------------|
| Prevedenie                       | Závitová                            |
| Materiál                         | Poniklovaná meď                     |
| Prípoj                           | G 1/4"                              |
| Pracovné médium                  | Stlačený vzduch, vákuum, voda, para |
| Materiál tesnenia                | NBR                                 |
| Teplotný rozsah                  | -20°C...+80°C                       |
| Pracovný tlak                    | -0,9...20 bar                       |
| Fixačná objímka                  | Poniklovaná meď                     |
| Materiál oporného krúžku         | Technopolymér                       |
| Menovitý tlak                    | -0,9...20 bar                       |
| Prípoj   vonkajší priemer hadice | Ø12                                 |
| Rozmer                           | Ø12                                 |
| Materiál tela                    | Poniklovaná meď                     |
| Materiál krúžku                  | Technopolymér                       |
| Materiál upínacích pazúrov       | Nehrdzavejúca oceľ                  |
